RMS Activities Eligible for Enhanced Match (pending CMS approval)

301A	Eligibility Determination and Benefit Calculation: includes establishing benefit levels, review-ing case record verification documents, preparation of calculation entries or computations, data entry for benefit/eligi-bility purposes, and completing necessary forms and any policy research specific to a case. This activity code is used for the initial and any subsequent review, recertification and benefit redeterminations. For Colorado Works this activity code is used to determine services (benefits) to be provided to the client. For Medicaid policy and research specific to a case select Activity 320: Medicaid Policy, Research and Outreach.
300A	Intake/Interactive Interview: includes conducting interviews, facilitating group interviews and video presentations, and providing applicant with appropriate forms, in the office, field, by mail or telephone. Also includes prelimi-nary review of application forms and verification documents, data entry, in the office, field, by mail or telephone. This activity code would include the identification of requested services. For Medicaid, video presentations and providing applicant with appropriate forms (outreach) select Activity 320: Medicaid Policy, Research and Outreach.
303	Process Changes to Ongoing Case: includes all changes or case reviews which may affect the level of assistance, including monthly report activities, which do not result from regularly scheduled review. Also includes changes of address as well as all related data entry.
299A	Application Initiation/Screening: includes completing the application initiation process for the interactive interview process. Includes assisting applicants in completion of the application.
301E	Long Term Care Financial Eligibility Determination: includes the preparation of calculation entries or computations, data entry for financial eligibility purposes, and completion of necessary forms and any policy research specific to a case. This activity code is used for initial and any subsequent review and recertification for clients who will be referred to SEP organizations, either private contractors or county contractors for functional review. For Medicaid policy and research specific to a case select Activity 320: Medicaid Policy, Research and Outreach.
306	Case Documentation/Client Correspondence: includes preparing narratives on house-hold situation and case activity, client correspondence and periodic reporting.
304	Discontinuation or Termination of Case: includes all activi-ties related to canceling a case, transferring case to other office/county, and appropriate data entry.
